

Disclaimer & Law Enforcement Notice

WeFarmHemp, LLC distributes only the highest-grade products that are fully organic, contain no pesticides, no residual solvents, no heavy metals, and no toxic mildew or mold. All products we distribute are tested by 3rd parties to confirm and maintain full accuracy and consistency of all quality control measures. All phyto-cannabinoid rich (PCR) products we produce, manufacture, or distribute, are derived from 100% Federally legal industrial hemp that is registered with the Wisconsin, Illinois, California, North Carolina, Colorado and Oregon State Departments of Agriculture and conforms fully to the 2014 US Farm Bill section 7606 which federally legalized the cultivation of industrial hemp under certain federal mandated conditions which WeFarmHemp and its partner suppliers fully meets.

NOTICE TO LAW ENFORCEMENT AUTHORITIES: WeFarmHemp, LLC is in compliance with the Agricultural Act of 2014, 7 U.S.C. §5940 (2014 Farm Bill), pursuant to pilot programs lawfully established under 7 U.S.C. §5940 in conformance with California Food and Agricultural Code, Division 24, §81001, et seq., and State Departments in the states where we source our products have certified, registered, and regulated the growing of our industrial hemp in conformance with federal and state laws, rules, and regulations. Federal law, in particular, 7 U.S.C. §5940(b)(1), entitled “Legitimacy of Industrial Hemp Research,” encourages growing, cultivating, and marketing industrial hemp products pursuant to these pilot programs, and by the rights and protections thereby established, WeFarmHemp proudly offers this legal industrial hemp high in cannabidiol (CBD) in the United States.

According to 7 U.S.C. §5940, the term “industrial hemp” means the plant *Cannabis sativa L.* and any part of such plant, whether growing or not, with a Delta-9 tetrahydrocannabinol (Delta-9 THC) concentration of not more than 0.3% on a dry weight basis. Only the Delta-9 THC level is relevant, not THC-A. As shown by the accompanying Certificate of Analysis, this hemp flower has a Delta-9 THC level on a dry weight basis below the 0.3% maximum level and, therefore, this flower is hemp, not marijuana, and is perfectly legal to possess and sell. This right applies in any state pursuant to the Full Faith and Credit Clause, Article VI, Section 1 of the Constitution, the Supremacy Clause, Article VI, Section 2 of the Constitution, and the Equal Protection Clause, Section 1 of the Fourteenth Amendment.

FOOD AND DRUG ADMINISTRATION (FDA) DISCLOSURE: The statements made on this website have not been evaluated by the FDA and the efficacy of these products have not been confirmed by FDA-approved research. The products listed on this website are not intended to diagnose, treat or cure any disease. WeFarmHemp, LLC always suggests that you consult with your health care professional about potential interactions or other possible complications before starting a new botanical extract, medicinal herb, or dietary supplement program.

All sales are final and non-refundable due to the nature of this product.

WARNING! If you choose to smoke CBD flowers, please be advised that you do so at your own risk; any form of smoke inhalation may be harmful to your health.
